

FLOW TRADERS

AMSTERDAM | CLUJ | HONG KONG | LONDON | NEW YORK | SINGAPORE

WHO WE ARE

Flow Traders is a global proprietary trading firm, headquartered in Amsterdam with offices in New York City, Hong Kong, London, Cluj and Singapore. As liquidity providers (or market makers), our role in the market is to provide bid and ask prices in several asset classes, with a strong focus on Exchange Traded Products (ETPs). We trade our own company capital, manage our own risk and leverage our cutting edge in-house technology platform to spot and take advantage of arbitrage opportunities.

GRADUATE TRADER PROGRAM

As a Graduate Trader, you will begin your career at Flow with an extensive 4-month training program at our New York office. During this program, you will learn everything you need to know about our core business, the financial products we trade and the intricacies surrounding our trading processes, including pricing strategies and our proprietary trading systems. It will also include participation in trading simulations and quantitative classes hosted by our Senior Traders and Quantitative Researchers that will further strengthen your understanding of a Trader's role in the financial ecosystem. After collaborating with your fellow graduate traders on a team project to conclude the training program, you will be assigned to an established trading desk based on your skills and interests. Gradually, you will take on more responsibilities, start monitoring markets and be able to make split-second decisions to contribute to the overall profitability of your desk!
